

Edge Pro

Portable Edging Machine

*For Marble and
Granite Countertops*

An easy to use, and transport, reliable and economical way to professionally finish stone edges.

Features

- Variable speed router requiring only 110v
- Slab guide is standard, but removable
- Uses standard industry bits
- Heavy duty roller system

Benefits

- No special transformer or 220 power is needed to operate the tool, making it truly portable and job site friendly.
- Tool can produce perfectly straight, or curved edges.
- Any bits can be used and do not need to be Edge Pro specific.
- Easy motion and allows for well balanced precision vertical adjustments.
