

# TRAC STAR

**NEW !!**

**Faster Drive Motor**

## Portable Sawing System

The **TRAC Star 2000** has a powerful 115 v, 18.8 Amp, 1-1/2 HP "washdown" motor. It produces a remarkable 4-1/2 ft. lbs of torque and carries a one year warranty. The blade revolves at 1725 rpm and won't slow down, even when cutting 30 mm granite in one pass. The saw operates on a v-groove track and is **AUTOMATICALLY** drawn down the track with a variable speed, front wheel drive motor. The new, faster drive motor allows the speed

of the saw to be matched to the stone for more efficient and effective cutting and operates under a constant pressure as it pulls the power unit down the trac. This assures the blade of no abrupt jerks into the stone as it cuts and results in a perfect, straight cut with no saw marks on the vertical edge. A standard 8" blade will cut 2-1/4" stone, 7" blade will cut up to 1-3/4" and a 10" blade will cut 3-1/4".

**FAST** ◆ **ACCURATE** ◆ **PORTABLE** ◆ **AUTOMATIC**

#### Arbor Motor

1725 rpm, 1.5 HP, 4.5 ft. lb torque  
Washdown, one year warranty  
110 v, 60 Hz, 18.8 Amp, 220 v, 60 Hz optional

#### Depth of Cut

8" blade 2.25", 7" blade 1.75, 10" blade 3.25"

#### Rails

12', 7'6" and 4'6"

#### Drive Motor

Forward/Stop/Reverse  
Speed 0 to 6 ft. per minute  
Weight  
Saw, 110 lbs, Rail set, 75 lbs  
Crated Weight  
Saw, 160 lbs  
Rail set, 90 lbs

\*Suggested Retail, with 8" blade included
