

DS302 12" Floor Machine, Active Driven, Planetary Polisher

Concrete and Stone Floor Planetary Polisher

For high-end commercial-retail/residential polishing where a superior polished finish is required. Well suited for spaces where using a big machine is not practical. For high-polishing solutions only.

"The 302 has produced great polishing results for my retail jobs."

Doug Ramirez, Tri Valley Polishing

Features

- Inter-Tool Base-to-pad rpm differential
- 90 degree swivel on wheels
- Operates wet or dry

Benefits

- Optimized to produce the best polishing results
- Allows the machine to track walls and get within 1/4" of the surface edge
- Flexibility in use
